This warranty is limited to the repair or replacement of defective material or entire product, at the discretion of the manufacturer It specifically does not cover either initial or replacement installation.

SAFTI *FIRST* extends the manufacturer's warranty to the immediate buyer. The conditions of this warranty for the SuperLite II-XL glazing material are as follows:

The supplier warrants its immediate buyers for a period of 5 years from the date of delivery that under normal conditions, discussed below, product manufactured by SAFTI *FIRST* will perform and provide the protections as required for its fire and/or structural ratings. For that period,
SuperLite II-XL glazing is warranted to provide free vision through the glass.

A degree of optical irregularity is inherent in the nature of multipanel layers of tempered glass surrounding clear, fire resistive intumescent interlayers, including some distortion, especially near the glass edges. These inherent irregularities do not affect the free vision through the glass.
